

International Fibreboard Casecode

This code which is prepared in collaboration with ES BO (The European Solid Board Organisation), contains a methodical presentation of all existing box design styles, a code number being assigned to each design. As a reference document, the code is used world-wide and it has been adopted by the United Nations.

Manual of Automated erection

Each design style includes one of the following indications

M - usually manual erection

A - usually automated erection

M/A - can be either manual or automated

M+A - requires a combination of both

Category : 01

Commercial rolls and sheets.

Description : 0100

Montage :

Single Face Corrugated

Description : 0110

Montage :

Single Wall Corrugated
(also known as Double Faced)

Category : 02

Slotted-type boxes consist of basically one piece with a glued, stitched or taped manufacturers joint and top and bottom flaps. They are shipped flat, ready to use and require closing using the flaps provided.
